

TC26

Ice Maker

- Self contained ice machine with storage
- Fully automatic Operation
- Spray system produces individual clear ice cubes
- Cubed ice approx. 31x35x31mm
- Large antibacterial integral ice storage bin to help prevent formation of bacteria and odors
- Easy to remove and clean condenser filter
- Integrated quiet running magnetic drain pump
- 304 grade stainless steel exterior.
- Adjustable feet for levelling
- Tropicalised refrigeration system will operate up to 43°C ambient

Ice Machine Making Individual Clear Ice Cubes

The TC range of ice makers uses a spray system to produce individual, clear, slow melting ice cubes. The unit is manufactured using 304 grade stainless steel, with the door at the front of the unit allowing quick access to an insulated storage bin featuring Ag+ antibacterial technology which helps prevent the formation of bacteria and odours. To ensure that the ice maker runs efficiently, the unit has an air filter that is easy to remove and clean. Units comes with an integral quiet running magnetic water pump to remove excess water. This allows for flexibility when installing the ice maker as the unit does not need to be located directly above a drain. In addition to adjustable legs, the unit also includes small adjustable feet meaning the height can be lowered by 68.5mm if required. The TC range is ideal for use in cafes, restaurants, pubs, bars, fast-food venues, and other hospitality establishments that require cubed ice for drinks or other purposes.

Design and Material		Measures		Power and Consumption			
Feet / Legs		Capacity Ice Production	kg/24h	26	Energy Consumption	kWh/24h	5,9
Exterior Finish	SS304	Capacity In Ice Container	kg	8	Annual Energy Consumption	kWh/year	2154
		Size of Ice Cubes	mm	31 x 35 x 31 (18g)	Input Power	W	350
		Water Consumption	l/24h	43	Voltage / Frequency	V/Hz	220-240/50
		Climate Class		5			
		Gross / Net Weight	kg	39 / 33.4
